LANGUAGES

Español: Native

Inglés: Level A2-B1

TECHNICAL SKILLS

Programming Languages:

JavaScript | Basic knowledge of C#

| Basic knowledge of Python

Frameworks/libraries:

Vue2 | Vue3 | NodeJs | Astro

Version control:

Git | GitHub | GitLab

APIs and Web Services:

RESTful | APIs | JSON

Asynchronous Programming:

Async / Await

Design and Prototyping Tools:

Figma, Adobe Photoshop,

Illustrator, After Effects,

Premiere Pro

Web Development:

HTML5 | CSS – SCSS

Css Libraries:

Bootstrap5 | BootstrapVue |

Tailwind | Vuetify

Databases:

SQL | Firebase | Supabase |

PostgreSQL

Agile Methodologies:

Scrum | Kanban

Jhonatan Vargas Uzcamayta

FRONTEND DEVELOPER

Bachelor's Degree in **Informatics** with a specialization in **Systems Engineering**. I focus on **Frontend Development** and have **strong skills** in **JavaScript, Vue 2, Vue 3, Astro, Git, RESTful APIs, HTML, CSS, Bootstrap, and Tailwind**. I have experience working in teams, managing projects, and using version control. I like building clean interfaces and practical solutions that help improve user experience.

PROFESSIONAL EXPERIENCE

PRIVATE TUTOR | 2016-2017

I gave private lessons in Physics, Mathematics, and basic Programming (HTML). I helped students understand difficult topics and prepare for exams and school projects.

PRIVATE COURSE INSTRUCTOR | SURPASS | Jun 2018

I taught private courses about USB virus removal, office software, and computer formatting and maintenance. Students learned how to solve common computer problems and improve the performance of their devices.

SUBSTITUTE MATHEMATICS TEACHER | SCHOOL | Ago 2018

I worked as a substitute mathematics teacher. I also helped students in computer classes when support was needed, with permission from the school authorities.

PRIVATE COURSE INSTRUCTOR | SURPASS | 2019

I taught courses about virus removal, office tools, and computer maintenance. The goal was to help students learn practical technical skills for everyday computer use.

COMPUTER ASSEMBLY AND MAINTENANCE INSTRUCTOR | INSTITUTE | 2020

I taught students how to assemble computers, install operating systems, and maintain hardware and software. The classes focused on practical learning.

ONLINE INSTRUCTOR | 2021

During the COVID-19 period, I taught online classes in Mathematics, Physics, and Computer Science. I used digital tools to help students learn and stay engaged during remote classes.

EQUIPMENT CONFIGURATION SPECIALIST | 2022

I worked configuring computer systems, installing operating systems, and optimizing hardware and software performance based on user needs.

PROGRAMMING COLLABORATION WITH A PUBLIC COMPANY | 2022

I participated in programming projects with a public company, helping to develop applications and improve internal systems. I worked with other developers to solve technical problems.

FRONTEND DEVELOPMENT INTERNSHIP | UPEA | 2023

I completed a Frontend Development internship at the Public University of El Alto (UPEA). I worked on user interfaces using HTML, CSS, JavaScript, and Bootstrap, improving usability and design.

INDEPENDENT NETWORK INSTALLATION TECHNICIAN | 2019-2024

I independently installed network cabling in homes, configuring RJ45 connections and installing routers. My work included planning cable routes, performing the physical installation, and basic configuration to ensure a reliable and high-quality network connection.

SO:

Windows 7, 8, 10, 11 | Android

Networking:

Network Cabling Structure | Router Configuration | LAN and WAN Management | Network Protocols | WiFi Access Point Configuration

SKILLS

Technical Skills:

Frontend Development | Basic Backend Development Knowledge | Project Management | Version Control | Continuous Integration and Deployment (CI/CD) | Basic UI/UX Knowledge | RESTful API Development

Soft Skills:

Assertive Communication | Teamwork | Adaptability | Analytical Thinking | Time Management | Creativity | Leadership | Problem Solving | Autonomy | Flexibility

AREAS OF INTEREST

Frontend Development | Web Application Development | Interface Design and Prototyping | API Development | Network Configuration and Connectivity | Agile Project Management | Web Accessibility

THESIS PROJECT DEVELOPMENT

I developed a project using Vue2 as the main framework and later Vue3 to experiment with the transition between versions. The project integrates technologies such as JavaScript and Bootstrap 5 for the frontend and .NET for the backend. I implemented APIs for communication between services and managed version control and collaboration through Git and GitLab.

FRONTEND DEVELOPMENT INTERSHIP | 2025

Internship in a government ministry where technologies such as Vue3, Vuetify, and Tailwind are used for the frontend and NestJS for the backend.

LANDING PAGE DEVELOPMENT | 2025

I develop websites for clients using Astro and TypeScript, deploying the projects through Vercel.

ADDITIONAL TRAINING

- “Computer Assembly, Configuration and Maintenance” – March 2010
- “Commission and Logistics in ACM – ICPC Competition” – Sep 2013
- “LAN and WAN Networks and Connections” – Oct 2013
- “Understanding and Solving Windows Server Vulnerabilities” – Nov 2013
- “XXI National Congress of Computer Science” – Tarija, Oct 2014
- “XXIII National Congress of Computer Science” – Plenary Sessions, La Paz, Oct 2016
- “Be PRO Photoshop Week” – 2020
- “Introduction to Programming” – OpenBootCamp 2023
- Currently studying: “Vue.js 3 From Scratch + Vite + Firebase 9 + MEVN” – Udemy 2023
- “Installation and Configuration of Analog CCTV Security Cameras” – 2024
- “Basic English Course A2: Infinitives and Present Continuous” – 2025
- “Vue.js: State Management with Pinia” – 2025
- “TailwindCSS Course” – 2025
- “Professional TypeScript Course” – 2025
- Bootcamp “Free Programming Bootcamp” – Midudev 2025
- “Iniciacion al Desarrollo con IA” – BIGSchool 2026.
